

Red Stone Income Fund USD (hedged)

Factsheet as of 30.11.2025

Investment Strategy

The investment objective of the sub-fund Red Stone Income Fund is primarily the real preservation and long-term increase of capital through interest and dividend income as well as capital growth. This is an actively managed sub-fund without reference to a benchmark. No assurance can be given that the investment objective will be achieved. The sub-fund invests in accordance with the principle of risk diversification in a broadly diversified securities portfolio consisting of equities, fixed-interest or variable-interest financial instruments such as bonds, money market claims and liquidity and other investments permitted under the fund documents. The sub-fund can invest worldwide, in all freely tradable currencies and in all industries and economic sectors. Investments are made in the currencies that are best suited to the performance of the sub-fund.
